CRICKET GROUND EQUIPMENT

➤ The leaders in design
and manufacture of
Quality Assured
products

NINE REASONS WHY YOU SHOULD USE QUIN'S SPORTS FOR YOUR NETTING SOLUTIONS

1. Quality Assured

Quin's Sports are a Quality Assured company and are accredited to Australian Standards 9002.

Peace of mind is what we deliver with a guarantee that all of our manufacturing and installation is performed to a recognised standard of quality.

2. Competitive Pricing

We remain competitive through our purchasing power by buying the best quality materials in bulk which means quality is never compromised

3. Experience

We have been supplying sports equipment for over three decades. All of our staff are free to offer years of knowledge to consult on any projects to help complete a system that best suits your needs.

4. Support

Quin's team of net makers offer a service facility on all products we sell.

Our team are able to travel Australia wide and can offer service contracts on net systems.

This can greatly improve the life of the Systems you buy from us.

5. Innovation

We test our product for strength and durability and are constantly on the lookout for improved quality. We test rope and twine for strength and elongation on our digital Test Machine.

Ultraviolet breakdown and durability of products are tested in the field with over 200 ton of product out in the Sports, Industrial and Fishing Industries.

6. Guarantee

We offer a three year warranty on all manufactured indoor netting systems and hardware, guaranteeing many years of trouble free service.

7. Quick Delivery

Our two manufacturing facilities located in Adelaide and Port Lincoln means that we are able to handle large orders at short notice. We carry a large amount of stock and are able to deliver orders faster than our competitors at any time of the year.

8. Latest Technology

Our European made netting making machines allow us to manufacture nets five times faster than those made by hand, greatly reducing the labour cost of production

This allows us to remain competitive on labour intensive jobs whilst still guaranteeing a high standard of quality.

9. In House Production

Our staff are in control of all aspects of the net systems we sell. We do not outsource any aspect of the systems we sell. The benefit to you is that we have greater control of quality from product development to purchase of

the highest quality materials, production, distribution and installation.

The Difference is in the Detail

- Experience in Design, Manufacture and installation over many years and in all corners of Australia has enabled us to make subtle detailed changes to our systems.
- Twine, rope, wire and rigging is all designed for this specific job from the best materials on the market
- Quin's Net Systems operate better for the players and groundsmen.

Cricket Sports Stadium Curtains

Upgrade your sports facility to give your players a world class facility to hone their skills in. The standard of specialised practice centres has improved with the installation of many of Quin's Sports systems around the world.

Quin Sports has revolutionised the indoor sports industry by leading the way with the development of netting systems that sets a new standard in sports arenas.

Quin Sports netting systems are for:

- Indoor cricket
- Baseball practice
- Cricket practice
- Indoor soccer
- Indoor hockey
- Gymnastics
- Golf driving ranges

Now complex netting structures can be fully removed in minutes to allow sports centres to be opened up for others uses and so becoming multi use centres greatly improving the sustainability of the complex by making them financially viable proposition.

Our new designs incorporate roof netting to protect lighting. Barrier netting can be erected to keep the spectators safe from stray balls. Lane nets can be erected on a wire system of 4mm galvanised wire or can be placed on a track system.

The bottom of the nets are weighted down with lead rope encased in PVC tape.

Quin's team of experts have years of installation experience and offer a free planning service to architects, builders and centre management to plan the best system that maximises a centres space.

Sports Stadium Curtains

Our nets are made from highly durable polyethylene and nylon netting, specifically manufactured for the application. We produce lane nets, side nets and black nets with or without polyester canvas, as well as roof nets under tension. Net to cover viewing areas for spectator safety is also an option.

We have completed work on numerous centres for the South Australian and Tasmanian Cricket Associations, as well as Gillespie Cricket Complex in Salisbury SA, the Victorian Cricket Centre in Victoria, Sydney Cricket Academy in and countless councils, schools recreation centres around Australia.

Multi Use Centres Now a Reality

Our customers can work with us to design a flexible multi use system to make maximum use of the spaces available. Our retractable netting system slides back to the wall to free up large areas of space for other activities.

Specifications

Netting – Our netting has been developed over the years of researched to cope with demands that are specific for each sport.

The multi-filament construction means the net is very good in areas of constant wear due to its special construction. The net will

not rot in the wet and will always maintain its shape over the life of the net.

INDSN White nylon sports netting

8.0 square meters per 1.0kg

Our white nylon sports net is factory bleached and made in sizes of 48mm square with a twine thickness of 2mm. We have been installing this style of netting for 20 years so we are aware of its capabilities. Also available in 25m square 3.0 meters per 1.0kg

SPBLK Black nylon sports netting

7.8 square meters per 1.0kg

The black nylon sports netting is made in sizes of 48mm and is dope dyed at the factory, a process that means the black colour runs right through the fibre, meaning the net will not fade to off white over the years of use in the sun. White netting that is dyed black will fade when the colour leaches out of the netting. Our netting is rated to last for 10 years out in the weather and sun. The multi-filament construction means the net is very good in areas of constant wear due to the special construction. The net will not rot in the wet and will always maintain its shape over the life of the net.

PRSN Polyester Lane Screens

4.6 square meters per 1.0kg, 2.0m wide

Our polyester lane screens are used in areas where there is the most wear to protect nets from constant impact of balls. The material is very strong and will last many years in the

Three Lane Cricket Practice

4 lane retractable cricket practice nets

harshest of indoor environments.

The screens can be stitched into the net or hung from the ceiling from ropes placed every 500mm along its top edge.

Outdoor Curtain Systems, Natural Turf Pitches

Outdoor Practice Systems

Quin's Sports Nets have revolutionised the cricket world with their budget and deluxe cricket boxes, available in galvanised or powder coated finishes. They enable you to secure your nets after practice, games and during the off season.

You have peace of mind in the knowledge that your polyethylene and nylon nets are protected from the sun, rain and opportunist vandals, allowing you the satisfaction of protecting your investments.

Our staff have the experience to design your entire cricket system to your specific requirements and supply from the initial foundations, nets and boxes through to the final installation.

Four Lane System

Maintenance Programs

Quin's offer a maintenance inspection services to access the amount of repair work and we offer an house repair service too.

Sports Netting

Repairing holes in the net, replace rings.

Synthetic Cricket Pitches

Permanently Glued down

Quin's will manufacture your new pitches from excavation of soil on site, to the pour of the concrete and finally laying of the synthetic pitch with waterproof turf glue.

Standard specifications are below.

Quin's Sports Cricket surfaces were developed after extensive research specifically for cricket.

Portable Synthetic grass Pitches

Standard width of 1.8m competition grade pile. Black taped edging with webbing straps 15cm long placed every three metres so that the pitch can be pegged down tight. We also custom build these to any requirement.

SCGSRE08.0 Length 8.0m width 1.8m

SCGSRE10.0 Length 10.0m width 1.8m

SCGSRE12.00 Length 12.0m width 1.8m

The pitch gives the most consistent playing surface. The bounce and pace of our pitches are even and promotes skill development and assists safety. If players, particularly juniors, are playing on surfaces with different bounce and pace characteristics, their skill development, safety and confidence will be negatively affected.

Contact grass glue formulated to be used outdoors in the weather with superior adhering to concrete.

SCGSGE4LT 4 litre tin

SCGSGE20LT 20 litre tin

Synthetic Cricket Pitches

(Roll Up, Portable)

Our portable pitches and pitch are made from the same hard wearing material as our permanent pitch and include a hard wear strip polyester backing 2m long at the stump end for extra strength and eight 30cm long webbing fixing straps with peg ring.

Eyzi Pitch Cover

For rainy days

EIPHCR 1000mm x 1200mm x 1000mm
250kg

Used to cover play area to protect player from unplayable surfaces

Made from light but strong polyester

material. Colour – white, weight is 260g per mtr square. The perimeter is double up for strength and includes eyelets every 1.5 meter to peg the cover down. Standard size is:

- 10m x 25m
- 30m x 25m
- 25m x 25m

Features and benefits

Light 260g material makes this cover light but strong special material folds up fast and easily after the rain stops. The waterproof fabric will not rot. The smooth surface of this fabric will not stain and is easily wiped clean.

Cricket Net Storage Boxes

About Us

We are a long established family owned business that has supplied the sport and leisure industry for over 80 years. We are market leaders in our field and maintain this through providing quality goods and satisfaction to customers with superior backup services. Quin Sports and Nets is now under the direction of Adam Quin, the third generation of Quin's.

Quin Sports and Nets is an Australian wide distributor, supplying high quality nets & posts for schools, recreation centres, clubs, councils and homes. We specialise in all types of netting and posts including soccer, tennis, lacrosse, cricket, hockey, volleyball, baseball, softball, basketball

and golf, as well as manufacturing scramble net, safety net, animal enclosure nets and anti-bird netting. Our tennis nets come with the recommendation of Tennis SA.

Quin Sports and nets manufacture custom made netting to your specifications, including the design, manufacture and installation, from start to finish. Adopting a Quality Management System has helped us establish ourselves as market leaders in our field and our aim is to maintain this through providing quality goods and satisfaction to customers.

Tradition with Innovation

Quin Sports opened its doors in 1961 and was started by Hugh Quin. It supplied clubs, schools and sportsmen with a wide range of equipment. During the first few decades of the company's history it focused on supplying domestic and foreign coast fishing fleets and ocean going fishing vessels with fishing nets and ropes of all kinds. We also operated Quin Canvas Goods, winning Government and Army tenders for covers and tents. The development of sporting equipment for gymnasiums, sports complexes and stadiums has steadily increased with improvement in the venues and focus on individual's performances and their equipment.

State of the Art Manufacturing Techniques

Quin Sports are the suppliers of the worlds most advanced netting from knot-less to knotted. All nets are made from the highest UV rating for protection in the Australian climate. Assembly techniques have been gained from experience in the deep sea fishing industry. We invest in the latest machinery to maintain a high quality product at competitive prices.

Professional Installation

Quin's maintain a professional team of experts with many years of installation experience. We provide this service world wide and have worked as far as USA, Mexico, Singapore and United Arab Emirates.

Maintenance

Quin Sports and Nets understand the need for our equipment to last as long as possible. We run an in-house maintenance service on all equipment we sell, the advantage of this being many more years of usage as we can repair worn or damaged equipment before the cost of repair outweighs the cost of replacement.

Services

Planning – Quin's staff offer a free planning service to work closely with customers, architects and builders in the planning process to overcome design concerns and tailor our equipment to suit any application.
